

6/1/20

Committee met briefly to make final decision on whether to move forward with combining Rec/Event Ctr. and Rec Fields under a Legacy building or to continue as planned with separate projects.

Updated numbers: 67% available to us in 13 years, would take estimated 2-5 years to see that, our project/committee has been put last on the list according to the Invest In Willmar steering committee

Felt we do not have enough info to warrant combining the projects and feel with the current budgetary cuts and what has already been invested in our individual project, we will stay the course as originally planned and not combined with the Rec Fields.

Our priority list:

1. Locker rooms & Office addition/updates
2. Rec/Event Ctr. with lobby addition (includes indoor playground, concession changes, etc.)
- 2b. Link to dome (if they choose to link)
3. Outdoor rink + courtyard
