

Does my emergency response plan include ethanol? Am I confident in my knowledge concerning ethanol safety standards? Can I treat ethanol like regular gasoline? **What should I do in an ethanol emergency?** Do I have the right type of fire extinguisher for an ethanol fire? Am I familiar with my emergency equipment? **Is ethanol safe?** Am I prepared with clearly posted emergency numbers? Do I know what needs to be included in an emergency plan? **Why is ethanol safety important?** Who can answer my questions about ethanol safety? Where is the emergency shut-down button located?

If you have questions, we have answers.
